

**C(DNR) 8c-P: Preserve,  
Clay County Bicentennial Prairie lease to DNR  
(Section 5, Keene Township)**

**Aggregate Potential:**  
None documented

**Prairie Habitat Assessment:**  
High quality prairie and habitat for rare species with some woody encroachment.

**Area Statistics**

	Landtype	Acres
	Dry Prairie (Northwest) Sand-Gravel Subtype	15.77
	Mesic Prairie (Northwest)	65.16
	Mixed Emergent Marsh (Prairie	1.53
	<i>Total</i>	82.46

**Dakota Skipper Habitat**

Habitat	Acres
Confirmed Good	53.96
<i>Total</i>	53.96

**Recommendations:**

Area is currently leased to DNR as a state scientific and natural area through 2026. Preserve through permanent easement, transfer, sale, or other protection agreement.

**Habitat Management:** Control woody species and maintain prairie with prescribed burning. Gate and restrict access at the southeast corner.

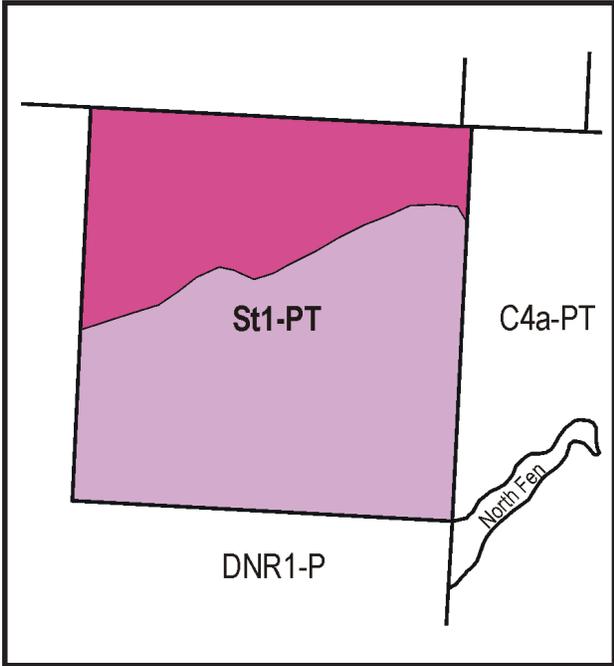

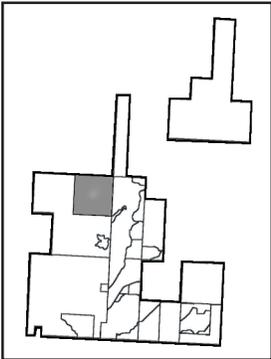

**St1-PT: Preserve or Transfer to WMA, DNR State Trust Fund, (NW1/4 section 36, Felton Township)**

**Aggregate Potential:** None documented.

**Prairie Habitat Assessment:**

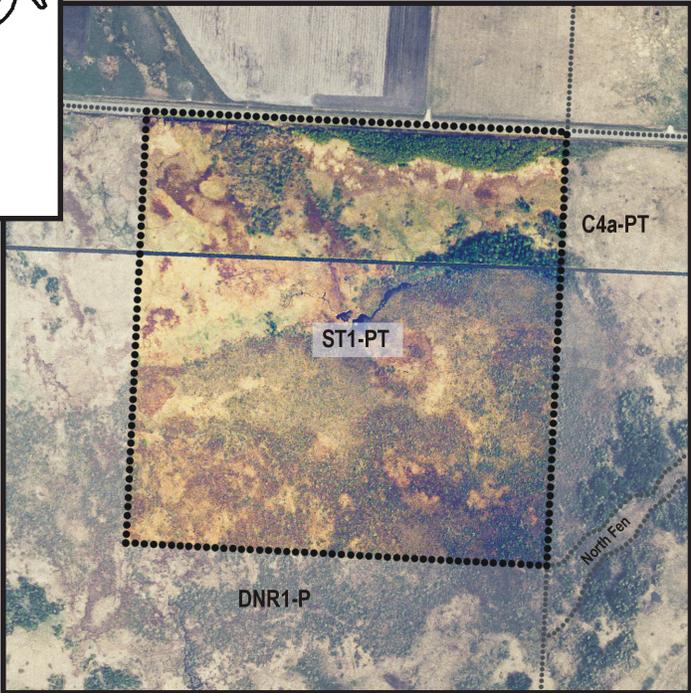

High quality prairie marsh and shrub swamp but experiencing significant woody encroachment.

**Fen Impact:** Proximate to north fen

**Area Statistics**

	Landtype	Acres
<span style="display:inline-block; width:15px; height:15px; background-color: #d62728;"></span>	Mixed Emergent Marsh (Prairie)	56.36
<span style="display:inline-block; width:15px; height:15px; background-color: #9467bd;"></span>	Shrub Swamp Seepage Subtype	97.26
<i>Total</i>		153.62

**Recommendations:**

Parcel borders Felton WMA, transfer to that unit after reimbursing the State School Trust Fund.

**Habitat Management:**

Habitat: Prescribed burning is needed to maintain prairie condition. Undesirable woody species should be girdled or removed.
