

Recycling Away from Home

People often use bottles and cans at events throughout Clay County. These containers are easy to recycle but end up in the landfill simply because there is not a convenient way for people to drop them into the recycling.

Residents of Clay County have gotten into the habit of recycling. Most have a system in place at home to collect several kinds of recyclables. Help us make it easier for residents to recycle when they are away from home.

Recycling containers are available for loan to groups through Clay County Environmental Programs at no cost. Event organizers can contact Shannon Thompson at Clay County Environmental Programs for more information about these containers.

▶ Recycling Container Loan Program

Clay County Event Recycling

Recycling containers are available for loan to events in Clay County at no cost. The bins are intended to be used to collect plastic or aluminum beverage containers.

The containers may be used at city festivals, conferences, family reunions, company parties, or other events that give people the opportunity to recycle.

Two types of recycling containers are available. We offer large tote style containers for large outdoor events. We also have smaller bottle shaped containers that may be used indoors or outdoors available.

Event Organizer Responsibilities

The event organizers are responsible for:

- Making arrangements for recycling
- Transporting the bins
- Collecting materials
- Transporting the materials to a recycler
- Funding the recycling
- Returning containers clean and in good condition
- **All materials collected for recycling must be delivered to a recycler.**

Start Planning Today

If you are planning an event please contact Clay County Environmental Programs about setting up recycling opportunities at your venue. When you call or e-mail to reserve the containers we can help you decide what size bins you will need and how to get the cans and bottles recycled.
